

# Bennettsville Primary School

Principal

Mrs. Gail Redding

"We would like to take this opportunity to welcome you to Bennettsville Primary School as we are ecstatic about the upcoming 2017-18 school year. Our school's Leadership Team has met and developed a very ambitious calendar of events in order to provide our little ones with a most spectacular year. This year will be chocked full of a wide variety of activities which will focus on raising the level of rigor, engagement, and academic achievement for all students. Our highly qualified faculty and staff members have been working diligently to ensure all classrooms are pristine and ready to welcome our children.

This year Bennettsville Primary School had adopted the theme, "Hand in Hand, Together We Can!" This theme truly embraces the vision and mission of our school as we deeply believe that effectively educating our children will take a team learning builds upon. Therefore, it is imperative that faculty, staff, family and community members formulate a tight knit group of support for our children as they begin their journey and blossom into their greatest potential and become lifelong learners.

We would like to welcome a few new additions to our excellent faculty and staff. Ms. Robyn Johnson will join our faculty as the Assistant Principal for Curriculum. Mr. Damion McLaurin has transferred in as our Guidance Counselor. Mrs. Elizabeth Hunsucker will join our faculty as a teacher of preschool children with disabilities. Finally, Mrs. Priscilla Weir joins us as our Music Teacher. Together, we will all make a dynamic difference in the lives of our children. So, welcome to the 2017-18 school year. Come join us as we make dreams begin!"
